

HOW TO PRINT A POSTER

Click Poster

The screenshot shows a printer's page setup dialog box. A red arrow points to the 'Poster' button in the 'Page Sizing & Handling' section. A blue arrow points to the 'Tile Scale' input field, which is set to 200%. The dialog box includes fields for printer name, copies, pages to print, and orientation. A preview of a poster titled 'Building SUPER STAMINA' is shown on the right. The poster features a grid and illustrations of a girl and a boy with books.

Change tile scale to 200%

Trim & overlap the four pieces, tape the back, & laminate!
